

One Week Proactive Kaizen Event

In Company Only

Change With A Difference

Key Benefits

- Immediate Tangible Results
- Enthusiasm to continue on this new path
- Your own people establishing new working methods and improving processes

Target Audience

Everybody involved in the selected processes

Making Kaizen Really Work in Your Company

Together we 'Make It Work' while we train and induct focusing on '**A New Experience within the Organization**'

Preparation is key to establish both a Structure and System to facilitate and to ensure it becomes part of '**The New Way of Working**'

Your processes will be improved with a continuous review including proactive measures becoming part of daily operation

Proactive Measures towards Safety, Quality, Lead Time, Daily Management System: choose your own focus in your Kaizen Week

Imagine how this can contribute to Safety, Quality, Customer Satisfaction, Overall Equipment Effectiveness and Elimination of Wastes.....

The program will be specifically adapted including all the tools and skills needed **for your own program**. Only the most relevant and effective methods will be used. You can obtain exceptional results provided there is full support for implementing and sustaining the improvements.

The program must always be seen as **not a training event** – It is a program of Change particularly in the Mindset of people participating in the implementation.

Prior to the Kaizen Event

We conduct a review with the Company, pre planning your goals and objectives related to the event and the ongoing program to fully implement the improvements. Specific locations and areas to work within have been selected and the appropriate techniques and training requirements have been identified.

Measurements will include Overall Equipment Effectiveness or Performance Metrics that the company employs.

Kaizen Outline

The Specific Schedule will be defined and supplied to all participants both internal and external before the start of the program. We Always Focus On Waste That Creates An Ineffective Process or Operation.

Kaizen Event Schedule Example

- Day 1: Training, Data Gathering and Analysis, Initial Hands-on activities
- Day 2: Continued Shop Floor “Hands On” Improvement Activities
- Day 3: Extend on initial improvements
- Day 4: Refinement and Standardized Instructions
- Day 5: Finalize Refinement and Instructions, Presentation to Management, Pizza Diner
